

Stevenson's
DOORS Ltd

Quality Doors.
Reliable Service.

Stylish practicality

Stevenson's Doors manufacture and supply GDC Commercial Door Systems, including glazed panel and steel commercial grade sectional doors - as used extensively by New Zealand's emergency services.

Aluminium glazed upward lifting sectional overhead door, lightweight, smooth, quiet operation. Manufactured from aluminium extrusion, finished in powdercoating or anodised. These units are installed complete with commercial grade hardware and counterbalanced with torsion springs.

Doors can be manufactured up to 5m x 5m and larger in some circumstances and may be auto mated with a wide variety of activation options, remote, groundloop, radar, push button and more

These have been used in emergency services buildings, garages, homes, restaurants, only the imagination limits it's use. Fully glazed, partially glazed, or fully solid, the choice is yours

Industrial Sectional Doors

Our sectional-overhead GDC Commercial Door Systems feature upward-lifting aluminum-glazed panels, providing smooth, quiet operation.
